iconic spaces

- The Design Museum's seven different event spaces form one of London's most iconic contemporary venues.
- Each space is housed under the incredible hyperbolic paraboloid roof, an original feature from this landmark building's former use as the Commonwealth Institute.
- The Grade II* listed structure is the only public building designed by John Pawson and provides an engaging and exciting setting for visitors, or for spectacular corporate events.
- The atrium is the Design Museum's showcase space, providing a dramatic, triple height venue with stunning views of the iconic roof. Ideal for evening drinks receptions, awards ceremonies and dinners.
- Our meeting rooms, film studio, auditorium, longues and outdoor spaces are also available for hire, perfect for hosting both corporate and private events, filming and brand activations.

The Design Museum **makes the impact of design visible to all**. It is Britain's hub for the design industry, education and the public. It is the place where people can gather together to reflect on the future through the lens of design.

our purpose

The Design Museum **is the leading museum dedicated to contemporary design and architecture**. The museum stages four major exhibitions a year in two gallery spaces and hosts a programme of dedicated displays on the balcony gallery and in the atrium space. It engages 10% of UK schools.

In 2018 it was awarded **European Museum of the Year**, and since relocating to a modernist icon in Kensington in 2016, it has welcomed over two million visitors.

our impact

Ardagh Young Creatives: intensive mentorship programme for underrepresented young people aged 14-16.

Entrepreneurs Hub: first of its kind in the UK, this is a museum-based mentorship programme for 15 design-led start ups

Design Researchers in Residence: in this annual programme four emerging designers take up residence in the museum to develop and explore their design practice

Future Observatory: the museum's national programme for design research supporting the UK's response to the climate crisis.

Design Ventura: an entrepreneur schools programme that reaches 16,000 school children per annum
